SHIP WRECKAGE

British Steamer Breaks Up On Newfoundland Coast.

Crew Barred By Cliffs, is in Peril.

(Canadian Press Wire.)
Halifax, N.S., March 17.—(By the Canadian Press.)—The British steamer *Tewkesbury*, 2,700 tons, eastward bound from Hamilton, broke up at 2.30 o'clock this morning, four miles northwest of Cape Pine, Nfld., according to information reaching the Naval Department here. Further advice states that the ship began to break up shortly after striking, and that the crew of approximately thirty men seized their only opportunity and fled to the boats in an endeavor to find shelter in the base of the 200-foot cliffs which line the Newfoundland coast at this point. Disaster overtook the ship with such suddenness that it was impossible to render assistance, and it will be some hours, it is believed, before help arrives at the scene. At present, the wireless operator aboard the *Tewkesbury* reported that the steamer broke up at 2.30, thirty-seven minutes later, he reported that the crew had been forced to take to the boats, in an effort to land at Bay Lash. The last word from the *Tewkesbury*, previous to her going ashore, was received at noon yesterday, when she asked for regional finding stations at Cape Race and Casco. Her position at that hour was forty-two miles south of St. Pierre, Nfld.

before purchasing a baking powder that may possibly contain injurious ingredients. Many food chemists claim that baking powder containing alum is unsafe for use in food. The mere fact that some brands of baking powder have the words "No Alum" on the label is not sufficient proof that they are what they are represented to be. Our chemists find a good many have "No Alum" on the outside but large quantities of it inside.

French Refuse Kapp Aid--Red Revolution Sweeps across Germany

Berlin, March 17.—The official communique announcing the resignation of Chancellor Kapp endeavors to give a patriotic aspect to his withdrawal. It says:

"The Kaiser Government, having politically decided to fulfill the most essential political demands which on Saturday led to the resignation of the Kaiser Government, the Kaiser Government considers its mission fulfilled and resigns, relinquishing the executive power again into the hands of the military commander-in-chief."

This is to be interpreted by the conviction of the extreme necessity of the Fatherland, which demands the solid union of all patriotic and revolutionary elements of the Fatherland. A large official communication, "General Provincial Director Kapp has been arrested, with the intention of internal peace. General von Luttwitz has been arrested, with the intention of internal peace. The Vice-Chancellor, in the name of the Imperial President, has been arrested, with the intention of internal peace. The Vice-Chancellor, in the name of the Imperial President, has been arrested, with the intention of internal peace."

Constantinople, March 17.—The Allied High Commissioner here has issued a statement declaring that the Allies have an intention of destroying the authority of the Sultan, but it says the Allies will adhere to their intention not to deprive the Turks of Constantinople, but that they will be compelled to modify that decision if massacres and disorder continue.

The Allies have occupied the Ministries of War and Navy and assumed control of the posts, telegraphs and railways. The city has been under military suspension. Shipping also has been suspended.

London, March 17.—Great Britain is in absolute control of Constantinople and the lower districts. It is expected that there should be any more fighting. The occupation of the Turkish capital was attended by fighting with loss of life.

Andrew Bonar Law announced in the House of Commons today that the Turkish capital has been occupied by Allied troops, as proposed, and that the Allies have secured the city. The occupation of the Turkish capital was attended by fighting with loss of life.

For reasons previously indicated, it was decided that the Government, in conjunction with the Allies, should proceed with the occupation of Constantinople. The general administration of that city would not be taken over, but the Ministries of War and Marine, and the telegraph and postal services would be placed under Allied officers.

DETAILS OF FIGHTING. Constantinople, March 18.—Constantinople was taken by the Allies by Allied forces under General Sir George F. Milne, of the British Army, and the city was secured. The occupation of the Turkish capital was attended by fighting with loss of life.

Report Has Three Members of Last Year's Board Replaced--Did Larry Burke Ever Play Pro. Ball?--Complaint Lodged Against Harvester Pilot

they will have much business to deal with, including one application for reinstatement, which comes from a chap named Billingsley, and also to find out whether Larry Burke ever played professional baseball. This charge has already been laid against Larry, despite the fact that his appointment as pilot of the Hargesters was only announced a few days ago, and should the charge be true, the implement workers will have to hunt up a new leader, for there is an iron-clad rule in amateur ranks that prohibits professional baseball players from acting as manager.

Should Frank Robbins be appointed on the local board it may mean that Hamilton will be O. A. B. A. headquarters, for with George Walker, Secretary of the Ontario body, now a resident of this city, and the vice-president at Brantford, it would be much

Billingsly, who seeks reinstatement, played a few games in the City League and then jumped to Harvey Muir's semi-pro. team. He is a catcher, and if reinstated will most likely be seen in action in the Central or East End League.
